Evaluating Internet Resources - eduScapes

A parasite is an organism that lives on or in a host and gets its food from or at the expense of its host. Parasites can cause disease in humans. Some parasitic diseases are easily treated and some are not. The burden of these diseases often rests on communities in the tropics and subtropics, but parasitic infections also affect people in developed countries.

There are few widely acknowledged quality standards for research practice, and few definitions of what constitutes good research. The overall aim was therefore to describe what constitutes research, and then to use this description to develop a model of research practice and to define concepts related to its quality.

Evaluating research: A multidisciplinary approach to

How to Write a Reaction Paper. A reaction or response paper requires the writer to analyze a text, then develop commentary related to it. It is a popular academic assignment because it requires thoughtful reading, research, and writing....
