

architecture as nature the pdf

Organic architecture is a philosophy of architecture which promotes harmony between human habitation and the natural world. This is achieved through design approaches that aim to be sympathetic and well-integrated with a site, so buildings, furnishings, and surroundings become part of a unified, interrelated composition.

Organic architecture - Wikipedia

Architecture is both the process and the product of planning, designing, and constructing buildings or any other structures. Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art. Historical civilizations are often identified with their surviving architectural achievements.

In 2006, Hart Howerton began an educational initiative to provide a select number of Fellowship positions for students at design schools. Each summer, Fellowships allow the firm to employ students in planning, architecture and/or landscape architecture internships in our New York or San Francisco offices.
