Benchmarking Healthcare Facilities Performance: A Key

Benchmarking--the process of establishing a standard of excellence and comparing a business function or activity, a product, or an enterprise as a whole with that standard--will be used increasingly by healthcare institutions to reduce expenses and simultaneously improve product and service quality.

An introduction to benchmarking in healthcare.

Benchmarking made its first appearance in the healthcare system in 1990 with the requirements of the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) in the United States, which defined it as a measurement tool for monitoring the impact of governance, management and clinical and logistical functions (Brailon et al. 2008).

Benchmarking: A Method for Continuous Quality Improvement

Healthcare benchmarking is taking a given organization's performance metrics and comparing those to a standard developed using data from other similar organizations. The practice has been around in healthcare since roughly 1985. Leaders use benchmarking to learn where an organization is performing ...

Healthcare Benchmarking - Healthcare Analytics and Data
